SUMMARY

Data Analyst with 3+ years of experience specializing in turning complex data into actionable insights. Results-driven, go to person for creating dynamic dashboards that deliver key insights and support strategic decision making.

WORK EXPERIENCE

LatentView Analytics, Sr. Data Analyst, Chennai, India

September 2025 - Present

- Designed and implemented a fully automated end to end reporting databricks pipeline, and used the Medallion architecture (Bronze, Silver, Gold Layers) significantly reducing manual effort, and turn around time
- Built and deployed real time Tableau dashboards by integrating with Databricks, enabling data driven insights and stakeholder visibility
- Migrated legacy SAS code to scalable Databricks-based pipelines, improving performance, maintainability, and process efficiency
- Interviewed 15+ candidates during the hiring process for the team and mentored and led juniors on projects.

Junior Data Analyst, Complex Adaptive Systems Laboratory

Sep 2020 - Dec 2020

- Accomplished the retrieval of a comprehensive dataset containing 6,000+ news articles from Twitter, crucial for analyzing public sentiment on hydroxychloroquine use during COVID-19.
- Reduced information retrieval time by 62% by developing a web page that summarized public sentiment, significantly improving access to critical insights.
- Presented data-driven findings to a diverse audience of professors, researchers, and stakeholders, effectively communicating complex analyses and tailoring information to varying levels of expertise.

PROJECT

Cafe Rewards Program Analysis

Metrics Used: Offer Conversion Rate, Funnel Drop-off Rate, Campaign Type Performance

- Analyzed BOGO, Discount, and Informational campaigns to identify highest-converting offer types.
- Mapped full user journey across campaign lifecycle to surface key drop-off points.
- Built interactive Tableau dashboards to present insights and support data-driven marketing decisions.

CERTIFICATION & ACHIEVEMENTS

- Received a Deloitte Applause Award for excellent client relationship building, recognized for ownership, learning speed, impactful work.
- Databricks Certified Generative AI Engineer Associate
- Hackerrank SQL Intermediate Certificate

SKILLS

Tableau, PostgreSQL, Python, JIRA, Looker Studio, A/B Testing, Databricks, Claude Code, Machine Learning

EDUCATION

University of Central Florida, Orlando, FL

Master of Data Analytics

May 2021

Sri Venkateswara College of Engineering, Chennai, India

Bachelor of Technology, Information Technology

May 2019
